Ph.D. Programme for International Students

INDIAN INSTITUTE OF TECHNOLOGY BOMBAY

Indian Institute of Technology Bombay

Established in 1958, the second of its kind, IIT Bombay was the first to be set up with foreign assistance by the then Soviet Union. In 1961 Parliament decreed the IIT's as 'Institutes of National Importance'. Since then, IITB has grown from strength to strength to emerge as one of the top technical universities in the world.

The institute is recognised worldwide as a leader in the field of engineering education and research. Reputed for the outstanding calibre of students graduating from its undergraduate and postgraduate programmes, the institute attracts the best students from the country for its Bachelor's, Master's and Doctoral programmes. Research and academic programmes at IIT Bombay are driven by outstanding faculty, many of whom are reputed for their research contributions internationally.
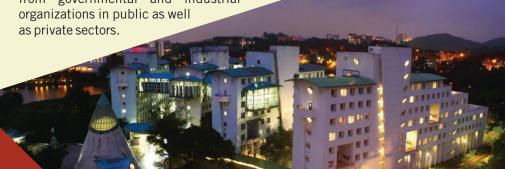

Located in Powai, one of the northern suburbs of Mumbai, the residents of the institute reap the advantage of being in the busy financial capital of India, while at the same time enjoying the serenity of a campus known for its natural beauty. A fully residential institute, all its students are accommodated in its 16 hostels with in-house dining; the campus also provides excellent amenities for sports and other recreational and medical facilities.

Outline

With a sound research base and extensive infrastructural facilities, the Institute offers Ph.D. programmes in a wide range of areas in Engineering, Science, Humanities, Management and Social Sciences. The broad objectives of the Ph.D. programme are to contribute to expanding the frontiers of knowledge and to provide research training relevant to the global social and economic needs of the present day.

The academic programme leading to the Ph.D. degree is broadbased and involves a course credit requirement and a research project leading to thesis submission. The Institute also encourages research in interdisciplinary areas through a system of joint supervision across different departments. The presence of a strong research oriented faculty provides excellent opportunities for such a programme. The Institute undertakes sponsored research and development projects from governmental and industrial organizations in public as well as private sectors.

Eligibility for the Ph.D. Programme

- Candidates from Engineering Discipline; a 4-year Bachelor's degree is the minimum qualification.
- For graduates in Science disciplines, a Masters Degree or equivalent is a must for applying.

The candidate must have 60% marks or equivalent in terms of GPA (Grade Point Average) and must have qualified for GRE and TOEFL/ IELTS. Persons who are in the final year of their degree are also eligible to apply.
